

B-SPOKE ORDER FORM

Prices are Manufacturers' Suggested Retail Price [MSRP] in US\$, excluding local/provincial/state taxes

To configure a Brompton, work through the ten sections, ringing the prices of those features you would like to incorporate; Sections 1 - 4 require a selection to be made. The total price is the sum of the items you have selected.

Do not make more than one choice in any section except in Section 4 (where two colour choices may be made on all-steel bikes) and in Section 11.

Standard equipment will be supplied unless special selections are made in Sections 5 - 8.

Although we normally keep the same prices for a year, we reserve the right to alter prices without notice.

Weight-saving

Whatever other features you choose, you can always save about a kilogramme by selecting a Superlight bike in Section 4. Additional savings can also be made by choosing an S Type, a 1- or 2-speed (i.e. without hub-gears), not adding mudguards, etc.

Notes

1. A pump is standard on all bikes except Superlight bikes, or those without mudguards
2. For an inside leg over 84cm/33", you should almost certainly fit an extended or telescopic seat pillar; the latter is best for an inside leg over 90cm/35", or for taller riders wishing to minimise the height of the folded bike
3. If selecting a Brooks saddle, please be sure to specify male or female version
4. Firm suspension may be more suitable for those weighing over 80kg and those who value responsiveness above comfort
5. The front luggage sets come complete with front carrier block and frame to attach the luggage to the Brompton, as well as a waterproof cover; please note that the Front Basket, C Bag and T Bag are unsuitable for S Type models
6. The Rack Sack can only be configured on a bike with a rear rack

N.B. Please consider the colours employed here as indicative only; colours on a paper form can not match exactly those found on a metal bike.
